SKILLS

Systems	Windows 7–11 · Windows Server · Ubuntu · Debian · Linux Mint
Networks	TCP/IP · DHCP · DNS · VPN (Tailscale) · LAN/Wi-Fi · switches · cabling
Security systems	CCTV (Dahua, Hikvision, NVR/DVR, ONVIF, RTSP) · alarm · access control
Remote support	AnyDesk · RDP · help desk (1st–2nd line)
Scripting	PowerShell · Python (learning) · HTML/CSS
Hardware	PC and laptop repair · printers · MFPs · scanners
Office & media	MS Office · Google Workspace · Figma · Canva · Premiere Pro · CapCut

PROJECTS

HHScript — PowerShell toolkit for field work: network scanner, ONVIF camera discovery, Dahua storage calculator, AnyDesk ID reset, Windows tweaks.

HHDesk — Personal work log and credentials vault: desktop + Android app (Tauri 2, Rust) with a self-hosted Debian server, OCR of screenshots, camera viewer. Built with AI assistance (Claude Code).

PROFILE

System administrator with 3+ years of hands-on experience supporting offices: workstations, LAN, Wi-Fi, CCTV and access control. At DG Computers I support client companies — on-site, by phone and remotely — and install CCTV, security and alarm systems. I automate routine work with PowerShell and build my own admin tools. Fast learner, used to solving non-standard problems on my own.
